

ONE DAY PARTS SERVICE
 4301 W. 134th St.
 Savage, Mn. 55378
 (612) 879-0837

Dear Freeway Owners,

As you know from the letter I wrote and sent to you last fall, it was becoming extremely difficult to stay in business as a specialty vehicle parts supply service. (I only sell H-K-V Freeway parts) Because of the problems that I have mentioned in that letter, (Small ownership of the One Day Parts Service and the high cost on all truck parts to keep in stock) I have decided to go out of business. As of April 30th, 1985 I will no longer take orders for replacement parts for your Freeway.

As I have promised many of you by telephone that I would give everyone a chance to purchase any parts they feel necessary to keep their Freeways running, this is your chance. I have put together a couple of parts packages that you may want to use as a guideline when ordering.

First, for those who do not plan on putting more than 10,000 more miles on their vehicles, I recommend these parts:

PART	Approx. Mileage Part Replacement	Quantity	Cost
Drive belt	5000 - 7000	1	* 12.50 ea. 12.50
Chain	5000 - 10,000	1	11.50
12 tooth sprocket	5000 - 10,000	1	11.75
clutch buttons	1000	2	* 1.50 ea. 3.00
		UPS - handling	5.00
		Total	43.75

If you are using the Salisbury clutch with the longer belt
 Add 9.00 for the drive belts... Additional cost for chain, belts 9.00
 Please specify when ordering.
 Total 127.75

Second for those who want to have parts to keep their Freeways running for a longer period of time, I recommend having these parts on hand:

Part	Quantity
Drive belts	2
Chain	2
12 tooth Sprocket	2
12 " " " " sprocket	1
Jacksplit bearings	2
**Salisbury driven clutch	1
Driver Clutch	1
Clutch buttons	12

**also drive belt and modified backbolt are required with this driven clutch.

These packages are recommended, but you can include any of the parts listed on the parts list provided. Or you can omit any parts from this list I recommend and save your own. Included is a current parts price list of parts I have in stock or still can order.

When you order you will need to include a check for the total amount. Also sure you include UPS * handling charges. Minnesota residence add 6¢ for tax on parts only.

Also for those who requested information on the Reverse that the Laminar has in it, this Reverse cannot be used on our H-K-V Freeway without major changes to the frame structure and drive train parts. The frame would need to be altered, (about 400.00 to 500.00 in alterations) and use different sizes and types of drive components such as drive clutch, driven clutch, jacksplit, belt, sprocket etc... that are not compatible with the H-K-V Freeway. With the cost of refitting the rear of the vehicle and the cost of the new parts in retrofit and the cost of the reverse all totaling near 1000.00, I think I'll push mine!

When you're ready to leave, I will call you to let you know the status of your account. I will not be able to let you know the status of your account until you call me. I will not be able to let you know the status of your account until you call me. I will not be able to let you know the status of your account until you call me.

Thank you for your careful consideration of this matter.
Sincerely,
[Signature]

List of the items that will be done in check as of 1/1/80

FINANCIAL - PARTS AVAILABLE
